

Principles of Programming Languages

Lecture 8: Coq - as a tool to define a PL

Andrei Arusoaie¹

¹Department of Computer Science

November 29, 2016

Outline

Motivation

Outline

Motivation

Demos

Motivation

- ▶ Interactive theorem provers: Coq, Isabelle

Motivation

- ▶ Interactive theorem provers: Coq, Isabelle
- ▶ Why?

Motivation

- ▶ Interactive theorem provers: Coq, Isabelle
- ▶ Why?
 - ▶ Mathematical proofs are often big and lacking details

Motivation

- ▶ Interactive theorem provers: Coq, Isabelle
- ▶ Why?
 - ▶ Mathematical proofs are often big and lacking details
 - ▶ Automatisatisation of proofs

Motivation

- ▶ Interactive theorem provers: Coq, Isabelle
- ▶ Why?
 - ▶ Mathematical proofs are often big and lacking details
 - ▶ Automatisation of proofs
 - ▶ Use a tool for handling all proof details

Motivation

- ▶ Interactive theorem provers: Coq, Isabelle
- ▶ Why?
 - ▶ Mathematical proofs are often big and lacking details
 - ▶ Automatisation of proofs
 - ▶ Use a tool for handling all proof details
 - ▶ Make sure proofs are **exact** - computer checked

Motivation

- ▶ Interactive theorem provers: Coq, Isabelle
- ▶ Why?
 - ▶ Mathematical proofs are often big and lacking details
 - ▶ Automatisation of proofs
 - ▶ Use a tool for handling all proof details
 - ▶ Make sure proofs are **exact** - computer checked
- ▶ These can be used as well for defining PLs

Demos

- ▶ Quick demo with natural numbers:

Demos

- ▶ Quick demo with natural numbers:
 - ▶ Define natural numbers, write theorems, prove facts by induction

Demos

- ▶ Quick demo with natural numbers:
 - ▶ Define natural numbers, write theorems, prove facts by induction
- ▶ Define a trivial PL:

Demos

- ▶ Quick demo with natural numbers:
 - ▶ Define natural numbers, write theorems, prove facts by induction
- ▶ Define a trivial PL:
 - ▶ Define syntax

Demos

- ▶ Quick demo with natural numbers:
 - ▶ Define natural numbers, write theorems, prove facts by induction
- ▶ Define a trivial PL:
 - ▶ Define syntax
 - ▶ Define semantics

Demos

- ▶ Quick demo with natural numbers:
 - ▶ Define natural numbers, write theorems, prove facts by induction
- ▶ Define a trivial PL:
 - ▶ Define syntax
 - ▶ Define semantics
 - ▶ Define a stack machine

Demos

- ▶ Quick demo with natural numbers:
 - ▶ Define natural numbers, write theorems, prove facts by induction
- ▶ Define a trivial PL:
 - ▶ Define syntax
 - ▶ Define semantics
 - ▶ Define a stack machine
 - ▶ Define compilation

Demos

- ▶ Quick demo with natural numbers:
 - ▶ Define natural numbers, write theorems, prove facts by induction
- ▶ Define a trivial PL:
 - ▶ Define syntax
 - ▶ Define semantics
 - ▶ Define a stack machine
 - ▶ Define compilation
 - ▶ Prove compilation correct
